4.2 ILLEGAL CONNECTIONS

Sewer services found to be illegally connected shall be considered as “Unlawful Drainage Work” and be dealt with in accordance with the prescriptions of the relevant by-laws and/or legislation.

A charge equal to the ruling cost of a sewer connection at the time shall be payable in addition to any other costs the municipality may incur to rectify such “Unlawful Drainage Work.”

4.2.1 Dumping Facilities for Vacuum Tankers:-

Dumping facilities for vacuum tankers will be provided **only** at the Purification Works daily from Monday to Saturday during the hours 07h30 to 16h00 subject to the following conditions:-

All discharge/dumping fees will be payable in advance.

Receipt of payment is not transferable to any other person or company.

If the contents of the tanker can be classified as a prohibited discharge as provided for in Section 80 of the Standard Drainage By-laws, dumping/discharge will not be allowed.

No industrial effluent will be received unless a representative sample is submitted to the Purification Works' laboratory prior to discharge. The discharge fee will be calculated in accordance with industrial effluent charges formula plus the cost of analysis and levied accordingly on the industry's monthly account.

No domestic or industrial effluent originating outside the municipality's area of jurisdiction will be accepted.

The fees applicable subject to the above conditions are as follows:-

8.3 DRAINAGE CHARGES

PART I

General Rules regarding Charges

- a) The charges levied under this tariff excludes VAT and shall be payable monthly in advance: Provided that the charges imposed in terms of Part IV of this Schedule shall be payable monthly in arrears.
- b) Where any person who is required to furnish a return in terms of this schedule or to provide such other information as may be necessary to enable the council to determine the charges to be made under this Schedule fails to do so within 30 days after having been called upon to do so by notice in writing, he shall pay such charges as the council shall assess on the best information available.
- c) In all cases of dispute as to the part or category of this Schedule, which is applicable, or as to the date from which any part or category is applicable to any premises the decision of the engineer shall be decisive subject to a right of the owner to appeal against his decision to the council.
- d) In the case of a premises already connected to a sewer or, which in the opinion of the council can be connected to a sewer, the applicable charges imposed in terms of Part II to Part VII inclusive shall be payable.
- e) The charges imposed under Part III of this Schedule shall remain effective in the case of buildings wholly unoccupied or in course of demolition until the date on which the council is requested to seal the opening of council's sewer.
- f) Where any change other than a change as referred to in item 5 is made in the nature of the occupation or the use of any premises which requires the application of a different tariff in terms of this Schedule, no claim for any adjustment of an account rendered or any refund of moneys paid in terms of this Schedule shall be entertained by the council unless notice in writing of the change is given to council within 30 days of the date of its occurrence.
- g) The average water consumption referred to in Part II or Part III shall be based on the average monthly water consumption calculated over the period 1 April to 31 March and shall apply to the financial year commencing on 1 July thereafter, provided that-
 - (i) In case of a new consumer, the council reserves the right to base the monthly average for the first three months on the average consumption of a consumer of more or less

the same consumption and in the same consumer's class for the previous period of 1 April to 31 March. The actual consumption for the first three months shall be used as basis to determining the levy from date of rendering the service up to the end of the financial year concerned.

- (ii) If the quantity of water, obtained from a source other than council's supply during a cycle, the charges will be based on council's estimate of the total consumption on such premises during the aforementioned cycle.
- h) Notwithstanding the provisions of item 7 and without prejudice to the council's rights contained in section 79 of the by-laws, every consumer has the right to install a sewage effluent meter at his own cost on the condition that the meter must be calibrated every six months and written proof to this effect must be submitted to the engineer, failing which item 7 will be enforced. Provided that, should the meter be out of order the council shall have the right to base the charge on the last known correct reading. Where an effluent meter is installed, the actual discharge measured by such a meter shall be used to determine the charges at the rates referred to in Part II to Part IV inclusive.
- i) Where no effluent meter is available to measure the actual volume discharged the charges referred to in Part II to Part IV inclusive shall be based on actual water consumption.
- j) Where the Council receives sewage effluent of which the council is not the supplier of the water, the monthly average effluent shall be determined on an estimate or a calculation based on the flow capacity of the sewer pipelines which are connected to the council's main sewer: provided that item 8 and/or Part III shall also apply mutatis mutandis.
- k) The owner of premises situated outside the municipal area which is connected to the council's sewer shall be liable to pay all the applicable charges set out or referred to in this Schedule and, in addition, a surcharge of 25 percent thereon.

PART II

8.4 INDUSTRIAL EFFLUENT

The following items shall apply for the purpose of section 5 read with section 77 to 80 of these by-laws in connection with and for the determination of charges payable for the conveyance and treatment of industrial effluent:

1. The owner or occupier of premises on which any trade or industry or of any process incidental thereto, any effluent is discharged into the council's sewer shall, in addition to any other charges for which he may be liable in terms of this Schedule, pay to the council an industrial effluent charge which shall be calculated:-
 - a-(i) according to the actual sewage effluent per month metered by a sewage effluent meter in kl; or

- a-(ii) according to the quantity of water consumed monthly: Provided that the conditions of items 9 and 10 of Part 1 under Schedule B shall also be applicable thereto.
- (b) In accordance with the “strength” of such effluent, as determined on the composite sample consisting of four scoop samples taken every hour by the engineer over a minimum period of four consecutive hours during the preceding month: alternatively, in accordance with the “strength” of such effluent, as determined on the composite sample consisting of such samples collected by an automatic sampling device as provided for in section 79 of the by-laws, provided that:
- (i) Where due to circumstances it is impossible to take such sample, the council shall take the “strength” of the last sample for the purpose of making such calculation. The “strength” shall be determined as specified in item 3. The levy per kilolitre or part thereof shall be calculated by means of the following formula:

Tariff in cent per kl = Charge (acod + BpH + Cec) where:

Charge	$1.7238 + 15\% = 1.98237$
--------	---------------------------

and where:-

- (i) $acod = (0.022368 \times cod + 0.011316 \times cod) - 25.6$
 where cod is the chemical oxygen demand in milligram per litre, determined according to the method published in Government Gazette No 2512, dated 29 August 1969.
- (ii) $BpH = (20.16 - 1.965 \times pH - 1.395 \times pH)$ where pH is less than 6.0;
 Or
 $BpH = (1.7 \times pH + 0.86 \times pH - 25.6)$ where pH is greater than 10.0 and where pH is the acidity value.
- (iii) $Cec = (0.034 \times ec + 0.0172 \times ec - 25.6)$ where ec (electrical conductivity) is measured in milli-Siemens per metre where $ec > 500$.
2. Whenever a sample is taken by the council in terms of item 1, one-half thereof, shall on his request be made available to the owner or occupier of the premises.
3. The strength referred to in item 1 shall be determined according to the chemical procedures by means of which sewage is to be analysed as described in Government Gazette No 2512 dated 12 August 1969 where $COD > 760$, for the determination of the chemical oxygen demand as well as the acidity measured by means of a calibrated pH meter and the electrical

conductivity measured by means of a calibrated conductivity meter expressed in milli-Siemens per meter where $ec > 500$.

4. (a) Where effluent is discharged into the sewer from more points than one on an industrial property, whether on the same floor or on different floors of the same premises and irrespective of the origin of the effluent, the council may in its discretion for all the purposes of making a charge in terms of this Schedule, including the taking of test samples, treat each such point of discharge as a separate point for the discharge of industrial effluent into the sewer.
- (b) For the purpose of calculating the quantity of effluent discharged from each point of discharge, as aforesaid, the total water consumed on the premises shall be allocated as accurately as is reasonably practicable, after consultation between the engineer and the occupier, among the several points of discharge: Provided that each point of discharge may be provided with a sewage flow meter in order to determine the actual sewage effluent.
